## Description

A gents WW1 silver trench watch. The watch has a Swiss hand-winding movement which is working well and the time keeping is good to within around two to three minutes over 24 hours. The watch measures 32.5mm diameter excluding the winding crown and the fixed wire lugs. The case is silver and there are hallmarks inside the case back for London (import mark), 1915, with an importer's mark for George Stockwell. The case is in good condition. The watch glass is also in good condition with just a few tiny nibbles to the bevelled edge. The black and white dial has lots of vintage appeal and is in good condition; the paint on the numbers and on the hands has darkened with age. A later black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
