Description

Antique 1913 Elgin full hunter gold plated pocket watch. The watch has a stem winding movement which is ticking away nicely and the time keeping is within 2 – 3 minutes over a 24 hour period. The movement is signed Elgin Nat'l Watch Co. U.S.A. 15 jewels and the serial number 17260813 which dates the watch to 1913. The watch measures 46.7 mm diameter excluding the stem. The gold plated case has light surface marks from use and a small "ding" to the front cover but otherwise it is in nice condition. The front cover has a slight gap at the side although it opens and closes as it should. The watch lens is in nice condition with only the odd minor mark. The dial is signed Elgin and has faint hairline cracks although hardly noticeable. The minute hand is a later replacement although antique. Price includes worldwide postage.
