Description

A gents 9 carat gold watch by Watches of Switzerland. The watch has a 15-jewel hand-winding movement which is ticking away nicely and the time keeping is good. The watch measures 31mm diameter excluding the winding crown and the lugs. It has a 9 carat gold case and there are hallmarks inside the case back for London 1961. The front of the case is in good condition for an early 1960s piece with just minor surface marks. There are some surface scratches to the case back. The lens is in good condition. The dial has the raised Watches of Switzerland logo and is also signed. It is in its original finish with original dauphine shaped hands and a centre seconds hand. There is some faint freckling across the dial. A new black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
