Antique pocket watch by Rotherham & Sons

Price

Sold**Item Reference: SA345064****Date of manufacture: 1910**

Description

Antique pocket watch by Rotherham & Sons, circa 1910s. The watch has a very good quality stem-winding movement, 17 jewels, adjusted which is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. Of particular note is the interesting regulator. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated. The front of the case is in good condition and there are a few little indentations and a 1cm scratch to the back. The watch glass is in good condition with just a couple of minor nibbles to the bevelled edge. The white enamel dial has blued steel hands, a subsidiary seconds dial and an outer minute track. There are a couple of short faint hairline cracks towards the bottom of the dial but they are barely visible to the naked eye. PRICE INCLUDES WORLDWIDE POSTAGE
