Description

1920s Federal full hunter pocket watch. The watch has a Swiss stem-winding movement, with seven jewels, which is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. The watch measures 50mm diameter excluding the winding stem and the loop. The case is an English made gold plated full hunter case. It has three fairly shallow indentations but overall is very acceptable for its age. The plastic lens is in good condition. The signed enamel dial looks very nice to the naked eye; if viewed through a magnifying loupe then a faint hairline cracks is visible between the sub seconds dial and number 4. Blued steel hands and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
