Sold

Item Reference: SA348498

Date of manufacture: 1900

Description

This brass compass with gun metal finish sits in it's original leather case. We believe this to have military connections as the dial is signed Savage & Son, Sandhurst - which is of course the famous English Military Academy. Some rubbing on the gun metal finish, otherwise in perfect working order. Approx diameter 2 3/4"

Internal Ref: ID 47002
