Description

16th Century French Oak Housekeepers Cupboard, Armoire This Old and roomy cupboard is made in solid panelled Oak, needless to say it is very heavy The two large doors enclose a deep cupboard with a pine shelf, each of the doors and the lower bottom panel are in a three panel formation with geometric patterns carved on them The doors have brass escutcheons, iron hinges and there is a lock and key but these are not original to the piece, and do not provide good locking The cornice at the top of the cupboard is removable as are the doors, this does help a little to reduce the weight for transportation but this one comes with a health warning, it is very heavy All in all this is piece is in good condition considering its great age there are old repairs as you would expect, it had been attacked by wood worm, this has been treated but it has left scars on the back and floor of the cupboard, The cupboard stands 73" high it is 55" wide and 27" deep JC75 We Give Free Delivery to Mainland England & Wales, to see all of our current stock please visit our web site at www.elmgarden.co.uk Delivery times vary from 7 to 28 days.
