Description

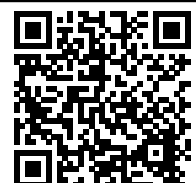

Dating from around the early 20hC, this pair of very decorative candlesticks has removable inserts, (see photograph 3). They measure 22cm in height and have an 11.5cm square base, with cherubs in each corner, and swaths of flowers around. They are a very good weight of brass, and have been exceptionally well made with crisp details. The price includes postage and package within the UK mainland only. We apologise for the quality of the photographs, and hope to change them over soon - the candlesticks are not greenish as appear in some of them!
