

SA353017

VICTORIAN CORINTHIAN COLUMN BRASS LAMP

Price

Sold**Item Reference: SA353017****Date of manufacture: 1920**

Description

This very heavy brass Corinthian column lamp was once an oil lamp, converted to electricity and we have recently had it totally rewired with flex cable for the UK market. It measures 39cm up to the base of the lamp holder and the base is 15cm square. It is in very good condition with no dents anywhere. The original cast iron base is still there although we have covered it with blue felt so the lamp can stand on any surface without damaging it. We have lightly polished the lamp but it has not been lacquered. The price includes postage and package within the UK mainland only, and quotes for outside the area can be obtained.

Internal Ref: 1322
