Description

1920s Swiss gold plated pocket watch. The watch has a stem-winding movement which is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it has engine turned detail and a central cartouche to the back. There is a little unevenness to the case back but overall the condition is good. The watch glass has minor marks but is very acceptable. The white enamel dial has a couple of faint hairline cracks. PRICE INCLUDES WORLDWIDE POSTAGE
