

SA355080

PAIR ART NOUVEAU BRASS CANDELABRA

Price

Sold**Item Reference: SA355080****Date of manufacture: 1910**

Description

This is one of the most superb pair of original Art Nouveau candle sticks we have had in stock for a while. They are made in brass throughout, and shaped around a triangular base with curved feet. It is hard to photograph the organic shapes of the candlesticks because the light reflects from the curves in the design, but in Photo 4 where the background is darker, it can be seen more easily. Each candle stick has four candle holders and both are in excellent condition. They have been professionally polished but not lacquered. They measure 42cm in height and approximately 20cm from one corner of the base to the other. They can viewed in the Surrey area, or we can supply more details if you email us, and we can try and take better photos! Postage and packing within the UK mainland only is included in the price, otherwise we are happy to supply estimated delivery costs elsewhere.
