

SA356383

Pair of Antique Continental Silver Goblets - 800

Price

Sold**Item Reference: SA356383****Date of manufacture: Victorian**

Description

This is a very attractive pair of continental silver goblets measuring 5 1/2" (14 cms) tall and just over 3" (8 cms) across the tops and in super undamaged condition. They have a swirl pattern to the body and an engraved pattern to the rim and weigh 216 grams the pair. They are marked with the 800 silver mark which denotes the silver standard and they also have the mark CAN. I have done some research and it looks like they may be Belgian as there doesn't appear to have been a strict hallmarking system in Belgium and makers were able to stamp the items with simply the silver content and their names, but other than that I can find no further information. I would say they were made around 1880 and are in a classic style and are very attractive. Free worldwide fully insured shipping included in the price.
