Description

Striking mid 19th.c. portrait of a young lady in oil on canvas c.1850. Interesting costume detail here, the sitter is pictured in a black shoulderless dress with ruched sleeves and delicate lace trim, wearing a pearl necklace, large drop earrings and a jewelled ring prominently displayed on her wedding finger suggesting this may be an engagement portrait. The hair frames the face with loose ringlets at the sides whilst the centre is held in a bun accessorized with a black ribbon and cap. Presented unframed on the original stretcher. Some obvious damage and several old repairs, none of which affect the face. Dimensions: width 21", height 25½". Year: c.1850 Stock Number: 27907
