## UNUSUAL PAIR OF CONTINENTAL BRASS & GLASS CANDLESTICKS

Price

**Sold****Item Reference: SA358390****Date of manufacture: 1870**

## Description

Very unusual pair of mid to late 19th century continental candlesticks in gilded brass and cut glass. The round bases with very nice cut glass dome and segmented shape glass base. The scroll shape brass supports have a cut glass centre part. I've never seen anything quite like these but they are of very good quality and they are pretty heavy. SIZE; 4 1/2" diameter base. 7 1/2" high
