UNUSUAL VICTORIAN CARVING OF THE ELEPHANT MAN

Price

Sold

Item Reference: SA359467

Date of manufacture: 1860

Description

Here we have a very nice 19th century Victorian wooden carving of what I think is the Elephant man. The man is dressed in typical Victorian attire with top hat but with deformed face. The colour and patination of the carving is superb. There is an old shake to the figure up the back. SIZE; 9 1/2" high
