Description

1930s Vertex pocket watch with an ornate gold plated case. The watch has a stem-winding movement, with 15 jewels, which is working nicely and the time keeping is good to within around two minutes over 24 hours. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and has a lovely design to the case back including a vacant cartouche to the centre. There is some gentle unevenness to the case back but other than that the case is in lovely condition. The watch glass has two or three tiny nibbles to the edge but overall is in good condition. The signed dial is enamel and it is in good condition with just a short hairline crack underneath the subsidiary seconds dial. PRICE INCLUDES WORLDWIDE POSTAGE
