Description

Victorian silver pocket watch by J G Graves. The watch has a stem-winding three quarter plate movement which is working nicely and the time keeping is good to within around two minutes over 24 hours. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Chester 1898. The case is in good condition with just a small indentation to the back and some rubbing to the engine turned detail which is quite normal on antique pocket watches. The watch glass has little marks across it but is very acceptable. The signed white enamel dial is in good condition. The hands are initially set by way of the pin set mechanism. One of the hands is a later replacement. There is also a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
