Description

This is a fabulous opportunity to acquire a pair of table or desk lamps dated to around 1900. They are just stunning and very classic in design, very tall and elegant with the Corinthian column ending on a stepped square base. As you would expect they are extremely heavy. They come with brand new green or cream coloured shades just let us know which you prefer. They measure 23 inches in height including the shades, the base is 4.5 inches across. This is a lovely genuine pair of lamps and not to be confused with reproductions. They would look wonderful in any period home. They have just been required by a fully qualified electrician and ready for immediate use.
