Edwardian large Oak pedestal desk

Price

Sold**Item Reference: SA367949****Date of manufacture: Edwardian**

Description

Edwardian large Oak pedestal desk Here we have this large pedestal desk that makes a very good sized work station. This desk was made in 3 parts for ease of movement. (By rule of thumb, if a desk is not in 3 parts it is a modern item or did not start its life as a desk. Many dressing tables were converted to desks for profit, that makes them undesirable for resale) The desk is fitted 3 drawers along the top and 3 graduated drawers to each pedestal. The desk is fitted its original brass handles and is raised on castors This desk is the design that Maple & co used to retail. to view this desk on video please go to www.hingstons-antiques.co.uk 153cms wide 76cms deep 78cms high 62.5cms high knee-hole height 70cms wide between plinths on the base
