Description

SUPERB early 1920's NORRIS, LONDON A2 coffin-shaped dovetailed patent adjustable smoothing plane in almost MINT condition. This is without any doubt the best condition Norris A2 I've ever handled. The fine rosewood infill has all the original lacquer and has no damage what-so-ever. Comes with the original Norris parallel iron which is nearly full length. If you want a really good Norris smoother that you can't go wrong at all with this one. These early Norris smoothing planes are incredibly difficult to find in this condition. You can't buy better guaranteed.
