Description

Good, better than average 19th century French flame mahogany Gueridon or round hall table. Very nice shape base with lion carved feet and cross grain mouldings. The original dish top marble top is in perfect condition and is a really nice piece of marble. The base is a nice colour with good patination and waxed finish. A few minor veneer repairs. You see this type of table around now but this example is a little bit better than most. SIZES; 38" diameter top. 30" high
