

SA375874

PAIR RAILWAY LANTERNS DATED 1864

Price

Sold**Item Reference: SA375874****Date of manufacture: 1860**

Description

This pair of oil lanterns are in good condition and still in working order, and we believe they were old Railway lanterns. Made of cast iron, one has the original brass label on the top which reads: ALEX KENYON & CO LAMP PATENTEES MAKERS MANCHESTER. Both lanterns have all of the original oil parts with a brass top, one side of each reads: PATENTED MARCH 1864. We decided to sell them as oil lamps and not convert them to electricity, but we could ask our electrician to quote for converting them if required. They measure 39cm in height, 50cm including the handle at full length; the main body is 15cm and with the iron cage around the width is approximately 21cm. They can be viewed in the Surrey area, and quotes can be obtained for delivery. For mainland UK only, delivery costs have been included in the price. The price is for the pair.
