

SA377240

Elgin Watch Ships Chronometer

Price

Sold**Item Reference: SA377240****Date of manufacture: 1940**

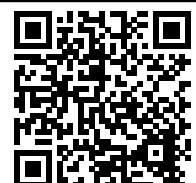

Description

A high quality chronometer mechanism ships clock in the original mahogany box. Double hinged for access to the mechanism to wind and a glazed to hinge for viewing. Mounted on a rotating gimball with locking device to the side. A screw down bezel to the 7 cm wide bevelled glass surround. An enamel dial with seconds and power reserve indicator to 40 hours. A fine precision 21 jewel chronometer mechanism no. 16748293. Circa 1940. Elgin were asked to produce these for American ships and boats for WW11. Not many were produced and these seldom come onto the market. From Kembery Antique Clocks Ltd you can expect a genuine watch with a written 12 month guarantee which has been serviced to a high standard. Free delivery on a day of your choice and is fully trackable. For our International customers please email us and we can give you a competitive postal quote which is also fully trackable.
