

SA377352

Early Longcase Clock by Robert Parkinson of Lancaster

Price

Sold**Item Reference: SA377352****Date of manufacture:**

Description

An early Lancashire longcase clock with fine features. An oak case with walnut crossbanding to the arch top trunk door. Gilded hood column capitals to the arched hood. A brass and silvered dial with ringed winding holes and engraving around the date aperture. A seconds dial and wheat ear engraving to the name disc in the arch. An 8-day duration mechanism with interesting features and engraved letters and numbers to the front plate (see close-up image). Hourly bell striking. Robert Parkinson of Lancaster is recorded in Loomes 'Clockmakers of Northern England' book as working from 1732-1759. He is noted in the book as making high quality clocks and engraving dates and letters to the mechanism. This one is signed '29 which is either 1729 (if working dates are incorrect) or clock number '29 he made and also 'Rob L'. Height 6ft 11 1/2" / 212 cm We personally deliver and set the clock up for you along with 12 months guarantee. Worldwide shipping available. please contact us for a quote.
