An antique silver Waltham pocket watch and chain

Price

Sold

Item Reference: SA378028

Date of manufacture: 1920

Description

An antique silver Waltham pocket watch and chain. The watch has a stem-winding movement and it is working nicely and keeping good time to within around two minutes or so over 24 hours. The movement is signed American Waltham Watch Co. The movement is protected by an inner hinged cover. The watch measures 55mm diameter excluding the winding stem and the loop and so is very slightly bigger than a standard sized pocket watch which is 50mm. The case is hallmarked for Birmingham 1913 and it has the case maker's mark for Aaron Dennison. Overall the case is in good condition with just a couple of small indentations to the back. The watch glass is in good order. The white enamel dial is signed with the Waltham name. There are a couple of short hairline cracks to the edge of the dial but not too obvious to the naked eye. The watch comes on a heavy silver double albert, 85g, and each of the links bear the lion passant mark and also includes a 500 Reis Brazilian coin dated 1889. PRICE INCLUDES WORLDWIDE POSTAGE
