

SA378031

19thc. mahogany small chest of drawers

Price

Sold**Item Reference: SA378031****Date of manufacture: 1800**

Description

Antique chest This early 19thc chest is fitted 4 long graduated drawers and stand on a plinth base. The drawers are lined with oak and have very fine dovetails The cabinet-maker spent time selecting the right timber to use when he made this lovely piece. The drawers have their original turned mahogany handles, that are turned to a conical shape and then with a delicate roundel to the peak. These Antique chests of drawers are so useful and can be used in any home. I find these chests so practical for modern living, they use every bit of space with no wastage and take a tremendous amount of items. 63cms wide 46cms deep 85cms high
