Description

This fabulous vintage cocktail tray was made in the Art Deco era of the 1930s. The design is classically Art Deco, the simple geometric pattern possibly influenced by the Bauhaus movement in Germany. The tray has a wooden frame and original backing, and a beautifully patterned glass top with simple wooden incurved handles. The bold geometric pattern is reverse painted, with two of the most strongly contrasting Art Deco colours of black and hints of russet gold. The epitome of Art Deco style and opulence and in good condition. Condition is excellent with the most minimal signs of age. Measures 42cm x 23cm. UK mainland postage £8.50 first class signed for.
