Georgian Centre Seconds Longcase Wilkes, Evesham

Price

Sold**Item Reference: SA380437****Date of manufacture: 1800**

Description

An impressive Georgian mahogany longcase clock with rare feature of centre seconds. A swan-neck hood pediment with brass paterae and central brass finial. Fretwork to the hood with fluted brass capped hood columns. A raised plinth panel with choice flame veneers to the case. An early example of a painted dial with raised gilt corner decorations and Georgian lady in the arch cartouche. Centre seconds hand and a date aperture. An 8-day duration mechanism striking the hours on a bell. John Wilkes of Evesham is recorded in Baillies' 'Watchmakers and Clockmakers of The World' book as working circa 1795. Height 7ft 9 "/ 237 cms From Kembery Antique Clocks you can expect a genuine clock with 12 months guarantee. We personally come to your home to deliver and set the clock up. International professional packing service available, please contact us for a quote.
