Description

An antique 1883 Chester silver pocket watch. The watch has a key-winding movement (a new key will be included) which is ticking away nicely and the time keeping is good to within 2 - 3 minutes over 24 hours. The movement is numbered 1552 and it is protected by a fitted inner dust cover. The watch measures 46.4 mm diameter excluding the stem. It is silver and there are hallmarks inside the two case backs for Chester 1883, with a maker's mark W.J (William Jee). The case has mild bruising to the back but overall it is in nice condition. The watch glass has faint surface marking to the outer edge from use although very acceptable. The dial has faint hairline cracks but otherwise it is in nice condition. The watch has its original blued steel hands. Price includes worldwide postage.
