Description

French Mineral and Fossil Specimen Collection and Cabinet. This is a Large and Unique Collection, of Minerals, in a French 16 Drawer Collectors Cabinet This is a rare find, the cabinet has 16 drawers, each containing round about 45 specimens of minerals, some a lot more, there must be around 1000 pieces altogether. The specimens include gems, rocks, coral, fossils, teeth, volcanic ash, and many more, the specimens seem to be mostly catalogued and labled, the pieces come from all over the world but were collected by a French collector so many of the lables are in French as well as latin The cabinet is made in solid Oak, all the drawers are numbered and have a turned knob on the front The Cabinet is good and sound and it is 45" high, 23" wide and 15" deep SR44 We Give Free Delivery to Mainland England & Wales, to see all of our current stock please visit our web site at www.elmgarden.co.uk Delivery times vary from 7 to 28 days We only operate an online store and regrettably viewing in person is not an option.
