Description

An antique Waltham 'Bond Street' pocket watch and double albert. The watch has a stem-winding movement which is working nicely. The movement is signed and it also has the serial number 16,934,451 which dates it back to 1908. The movement is protected by an inner hinged cover. The watch measures 47mm diameter excluding the stem and the loop. The case is 10ct gold plated and was made by the English firm, Dennison Watch Case Company. It is in lovely condition and the engine turned detail to the case back is still nice and crisp. The watch glass is in good condition. The white enamel dial is in lovely condition and has a good look with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes on double albert and they sit very nicely together. Each chain measures 25cm long including the clasps, T-bar and short length of chain. PRICE INCLUDES WORLDWIDE POSTAGE
