Mens vintage Smiths Imperial wristwatch

Price

Sold**Item Reference: SA384138****Date of manufacture: 1960**

Description

Gents late 1950s / early 1960s Smiths Imperial wrist watch, made in England. The watch has a hand-winding movement, calibre 0104, a good quality movement with 19 jewels. The 0104 was launched in the late 1950s, following on from the calibre 1215 which had 15 jewels. The 0104 was an improvement on the 1215 as it was designed for easy servicing and was a superior mechanism overall. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is gold plated and is in good condition for its age with just the odd minor bruise. The snap-on case back is stainless steel - it states that the watch is waterproof but, as with any vintage watch, this should not be relied upon. The lens is in good condition. The signed dial is in nice condition too with dauphine shaped hands and a centre seconds hand with a red pointer end. A new leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
