Description

Fully restored and service with a 12 month warranty. This is a lovely example of a sterling silver boudoir or bedroom clock hallmarked and dated to 1910. The original enamel sub seconds dial and glass are in perfect condition with no chips, cracks or hairlines. It has a substantial very high grade 4 pillar Swiss gilt movement. The movement is in excellent clean and running condition having just undergone a complete and comprehensive overhaul. The clock movement comes with a full 12 month warranty. Dimensions of clock: Height 4" width 4" depth 1.5". There are one or two small dings to the side of the case but this does not detract from the clock and of course being over 100 years old part of its history. Because of the reflections the photographs really do not give the clock justice. Delivery for this item to mainland England and Wales is free.
