## Description

Beautiful early 20th century engraved amber glass decanter with silver plate stopper and silver Whisky label. The amber / yellow decanter is a bottle shape and has been beautifully engraved all over with grapes and vine leaves. The stopper which I think is plate but could be silver is also of a similar vine, leaves and grape design, the cork is new. The decanter label is silver and is hallmarked for LONDON 1936 with the makers mark for HARRODS. Please note the decanter is not as yellow as the pictures suggest. SIZE; 13" high
