Description

A lady's Edwardian silver fob watch with albertina. The watch has a stem-winding movement which has been fully tested and is working nicely. The movement is protected by an inner hinged cover. The watch itself measures 36mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss hallmarks inside the two case backs. The outside of the case is beautifully detailed and is in lovely condition. The watch glass is in good order. The white enamel dial is in very nice condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes on a white metal albertina, possibly a low grade silver but not hallmarked which is usual for albertinas of this style. The watch and chain come in an antique presentation box although it is a little tatty and lid is no longer attached to the base. PRICE INCLUDES WORLDWIDE POSTAGE
