Description

An antique silver Artox pocket watch. Artox was one of the brand names used by Lesquereux & Cie of La Chaux de Fonds. The company is listed as being a manufacturer from 1915 through to 1928. This particular watch has a stem-winding movement which is working nicely. The movement is signed with the Artox name. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the screw-on case back for Birmingham 1919 with a maker's mark for the English based watch case maker Aaron Dennison. The case has three or four little indentations to the back of the case but overall it is in good condition for its age. The watch glass is in good order. The white enamel dial looks very good to the naked eye. Through a magnifying loupe, a faint hairline crack is just about visible running from 11 to 1. Blued steel hands, a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
