Description

A WW2 era Tisot pocket watch. The watch has a hand-winding movement, calibre 43, which has been tested and is working nicely. The movement is signed Tisot, Swiss and it has the serial number 1,643,725 which dates it back to 1945. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is argantan which is an alloy of nickel with copper and zinc. The case is in good condition with just the odd minor mark. The inside of the case back has the Tisot name. The lens is in good condition. The white dial is in beautiful condition and the outer minute track with red 24 hour numbers is a nice feature. The Breguet style hands and slightly larger than normal subsidiary seconds dial gives the watch a very handsome appearance. PRICE INCLUDES WORLDWIDE POSTAGE
