Description

1957 Gents 9 carat gold Elco wrist watch. The watch has a 21 jewel hand-winding Helvetia movement which is working nicely. It was quite common for watch makers to buy quality movements from other manufacturers to make their watches. The movement is stamped Helvetia 21 jewels, Swiss made. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for London 1957 with the case makers mark EWC (Elco Watch Company). The case is in nice condition with only light surface marks from use. The case back has a later inscription G.C.S.1.3.61. The lens is in good condition. The dial is signed Elco, 21 jewels with Swiss made at the bottom. The dial has faint speckling although it has a great vintage look. The watch has its original gilt hands. A new black leather strap has been fitted. Price includes worldwide postage.
