Description

Circa 1900-1920, this well made brass lamp has three lovely lion's claw feet and a decorative border around the base. It is a good weight, solid brass, and has been rewired to UK specifications. The lamp measures 29cm up to the base of the lamp holder, and approximately 17cm across from claw to claw. It has been wired so that it can take a normal fabric shade, or if you would like to match with with a period glass shade, we can include the brass gamble with it for an additional £10. Postage and packing for the lamp is included for mainland UK only, but we are happy to supply quotes for delivery elsewhere.
