Description

Superb & Rare full set of large Bookbinders letter stamps in original stained pine box. This is one of the best sets of Bookbinders letter stamps I've seen. They are a full, complete set and include an &, a comma and a full stop stamp. The letter sizes are 1 1/4" in height. They all have their original turned beech handles. Judging by the handles I don't think these have been used very much at all as there is little sign of burning to the handles. These were used hot to mark leather.
