Description

A Large Pair of 19th Century Gilt Wood Giroles or Wall Sconces This is a very Large and elegant pair of double wall lights, they are carved in wood and decorated with swags and urns. Each Sconce has a slender shape tapering at both ends, with 6 mirrors set in behind the sconces, giving a very pretty reflective light. The lights date originally from around 1850, they have been wired to take electricity, quite cleverly with imitation glass candle sticks, this could easily be removed leaving little sign it had ever been done. The Sconces are in remarkably good condition for their age, if they are to be used with electricity the wiring should be inspected when they are installed, the glass candles have hairline cracks but they are pretty sound, so we will supply modern card ones if preferred. The Sconces are 36" tall, 11" wide and they protrude 6" from the wall SR158 We Give Free Delivery to Mainland England & Wales, to see all of our current stock please visit our web site at www.elmgarden.co.uk Delivery times vary according to your location.
