

SA398613

A quality 1920 Elgin pocket watch

Price

Sold

Item Reference: SA398613

Date of manufacture: 1920

Description

A quality 1920 Elgin pocket watch. The watch has a grade 315 stem-winding movement which is working nicely. This is a very good quality movement and it has a Moseley patent regulator... a patent regulator is indicative of superior quality. The movement is signed and the serial number dates it back to 1920. The watch measures 43mm diameter excluding the winding crown and the loop. The case is gold plated and it has a decorative edge and vertical stripes to the screw-on case back. The watch glass is in good order with just a couple of minor marks. The signed enamel dial has a hairline crack running from the centre towards number 11 but it is very faint. Blued steel hands, a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
