**Date of manufacture: 1900**

## Description

A well used true artist's large wooden easel, made by the famous London maker "Winsor & Newton Ltd London", from c1890 to 1910. Winsor & Newton (W&N) is a company based in London, that manufactures a wide variety of fine art products. The company was founded in 1832 by William Winsor and Henry Newton. The firm was originally located at Henry Newton's home in 38 Rathbone Place, London. This was then part of an artists' quarter in which a number of eminent painters, including Constable, had studios, and other colourmen were already established. A few months before his death in 1882, Henry Newton sold the business to the newly incorporated firm of "Winsor & Newton Ltd.", which included members of both families amongst the shareholders. This easel had been in the same family for 3 generations since the turn of the c20th century till their recent estate sale. Very large, all joints adjustable with the original metal butterflies. Can be extended to over 3 metres. Tripod legs are fully adjustable to any angle you need. Decades of paint crusts add to the charm, which we have left on. Delivery within mainland UK is £45 due to its size. Collection is welcome from Chester...
