English $\frac{3}{4}$ plate pocket watch,
Rotherhams, London

Price

Sold

Item Reference: SA399375

Date of manufacture: 1900

Description

Antique English $\frac{3}{4}$ plate pocket watch, Rotherhams, London. The watch has a keyless (stem winding) $\frac{3}{4}$ plate movement which is signed Rotherhams, London, together with a serial number. It is working nicely and keeping good time. The movement would probably have sat in a gold case originally but over the years this has been replaced with a custom made heavy weight case which would have been expensive to produce, especially as the watch has a pin-set mechanism. The watch measures 52mm diameter excluding the winding stem and the loop. The case is silver plated and it is in good condition, just a surface scratch and small indentation to the back. The lens is in good order. The signed enamel dial has a faint hairline crack between 12 and 1 but otherwise is in good order. Blued steel hands (initially set by way of the pin set mechanism), a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
