Description

A 1920s 9 carat gold Tavannes trench watch. The watch has a Swiss hand-winding movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the fixed wire lugs. The case is 9 carat gold and is hallmarked for Chester 1921, with a maker's mark for the watch case makers John and William Benson from Liverpool. The case is in good condition... there are traces of an inscription on the back of the watch. The watch glass is in good condition. The white enamel dial has some damage next to the number 5, towards the edge, but otherwise is in lovely condition. The hands appear to be the originals... there is a little infill missing from the minute hand. A later brown leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
