Gents 1940s Rotary bumper automatic wrist watch

Price

Sold**Item Reference: SA400542****Date of manufacture: 1940**

Description

Gents 1940s Rotary bumper automatic wrist watch. The watch has a Swiss bumper automatic movement, with 15 jewels, which is working well. Early automatic watches such as this one relied on the rotor 'bumping' between two springs to maintain the power within the movement. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is plated with a stainless steel case back. There is a little wear to the plate, mainly to the top lugs where it has rubbed on a sleeve. The lens is in good order. The dial is signed Rotary, Never Wind, Non Magnetic. It is in its original finish and there are a few little marks but all acceptable for a 1940s piece. The hands appear to be the originals, as does the red centre seconds hand. A new leather strap has been fitted.

PRICE INCLUDES WORLDWIDE POSTAGE
