Description

A really super quality mid/late 19th century French OVAL CARRIAGE CLOCK in perfect condition. The case is oval, engraved all over with curved bevelled glass panels to all four sides. The fine enamel dial and the subsidiary alarm dial are both perfect and housed within a finely engraved and gilded inner mask. The 8-day movement strikes hours and half-hours on a bell, repeating hours at will via the upper button and the alarm train works perfectly. This movement retains its original lever escapement and is numbered 4712. A wonderful carriage clock!
