Date of manufacture: 1910

Description

A Spiral Breguet pocket watch, circa 1900. The watch has a key-winding movement which is working nicely. It has a "Spiral Breguet" which means that the hairspring has a Breguet-style overcoil. The movement is protected by an inner hinged cover. The watch measures 50mm excluding the stem and the loop. The case is .800 silver and there are Swiss hallmarks inside the hinged case back, including the grouse mark. The case is in good condition and has decorative detail to the back. The plastic lens is in good condition. The white enamel dial is in good condition and the ornate hands add plenty of character. There is also a subsidiary seconds dial and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
