Description

A gents 1950s wrist watch from the Harman Watch Company. The watch has a Swiss 17-jewel hand-winding movement which is working well. The Harman Watch Company was established in 1933 in New York and they imported movements from Switzerland for casing and subsequent supply for retail. The watch itself measures 24mm wide excluding the winding crown and 24mm high excluding the lugs. The case is 10k rolled gold and it is in good condition... the shaped sides and lugs are a particularly handsome feature. The watch has a faceted lens has a small chip to the side and a couple of light scratches but overall is very acceptable. The dial is in its original finish with all the stones being intact. A later black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
