

SA404092

Antique English silver fusee pocket watch, 1877

Price

Sold**Item Reference: SA404092****Date of manufacture: 1870**

Description

Antique English silver fusee pocket watch. The watch has a fusee (chain driven) movement which is ticking away nicely. The movement is protected by an inner cover. A winding key is included. The watch itself measures 43.5mm diameter excluding the stem and the loop so it is a little smaller than the standard size of 50mm. The case is silver and there are hallmarks inside both of the case backs for London 1877. The case is in good condition with just some rubbing to the engine turned detail on the back, just from use over the years. The watch glass has a little nibbling to the edge but is very acceptable. The white enamel dial has a short hairline crack just beneath the subsidiary seconds dial but otherwise looks good with blued steel hands and an outer minute track. PRICE INCLUDES WORLDWIDE POSTAGE
